# Update and Review – SFSF Grant Application

---

- **The total number of data requirements is 37.**
- **Each data item has two parts.**
  - ✓ Can you collect the data or verify existing federal data?
  - ✓ Is it updated frequently, publicly reported and available?
- **If a state is not currently able to collect or publicly report the data or other information, the plan must describe the State's process and timeline for developing and implementing by September 30, 2011.**

# Update and Review – SFSF Grant Application

---

**What we must do to ensure that progress is being made:**

- **The state must collect and describe for every school district and charter school:**
  - ✓ The system used to evaluate the performance of teachers and principals and the use of those results from those systems in decisions regarding teacher development, compensation, promotion, retention, and removal.
  - ✓ Whether or not the system includes student achievement outcomes or growth as a criterion.
  - ✓ The number and percent of people at each performance level.
  - ✓ Whether or not these systems are publicly reported.

# Review and Discussion – LEA Survey

---

## **Teacher Evaluation Survey:**

<http://www10.ade.az.gov/SelectSurveyNET/TakeSurvey.aspx?SurveyID=864L584>

## **Principal Evaluation Survey:**

<http://www10.ade.az.gov/SelectSurveyNET/TakeSurvey.aspx?SurveyID=864L684>

## **Feedback from the Field:**

---

**Descriptor (a)(1) & (2) use the term “removal.” It would make more sense to use the term “dismissal” on the survey.**

### **Time & Resources Needed**

- **Minimal**

### **Timeframe to Collect Information**

- **AIMS testing is coming up soon**
- **Districts & Charters are currently “consumed” with determining how the budget cuts will affect programs & personnel**
- **The later this is required the better**
- **A one-month survey “window” should be adequate**
